2021 ROB AVERY ATPL COURSES IN SYDNEY

Following on from the very successful 2018, 2019, 2020 lecture series, **Sydney Flight College** have scheduled in-class delivery of ATPL lectures for the four most challenging ATPL subjects during 2021 at their state-of-the-art Bankstown Airport Campus. Rob's in-class courses are always sold out very early on, so best move on this now - Do not delay!

In-class ATPL courses offered in May/June 2021 are:

Course #1/2021

- **Navigation: Wednesday 12th May to Monday 17th May 2021 (6 days straight in-class).**
- **Performance & Loading: Thursday 27th May to Monday 31st May 2021 (5 days straight in-class).**
- **Flight Planning Monday 14th June to Sunday 27th June 2021 (4 days on/1 off routine). 12 days in-class in total.**
- **Aerodynamics and Systems: Dates yet to be decided shortly (call for details).**

For those in the Sydney area, this will provide the following benefits...

- Cost savings as no flights or accommodation cost incurred.
- The benefit of having Rob's 28+ year ATPL teaching experience/online training notes working for you.
- Individual subjects available.
- Access to the online course that back's up the in-class delivery sessions.
- Access to courses that deliver very high student exam first-sit pass rates/marks.
- Personal and direct access to Rob's knowledge and wisdom, plus online help by Rob during, and post course.
- Small class sizes - Personal attention, and not having to cope with dozens of others in your class.
- All CASA-focused practice exams are included in the price, as is GST.
- CASA exams scheduled between subjects.
- ASL exam centre nearby. Plenty of nearby low cost B&B accommodation, and a lunch bar close by.
- If desired, optional access to any of the other three subjects by distance learning via the Internet.

Interested?

To express your interest, and be kept informed of future updates to this course, please register your details at:

bit.ly/SFCATPL2021

Please note that course commencement will be subject to a minimum number of enrolments and Covid situation at the time. SFC will use the expressions of interest we receive to judge the viability of running the ATPL ground theory course in Sydney, and will update you with more information as it becomes available.

More information contact Dan Casuscelli danielc@sfcaero.com.au or via Flight desk (02) 9709 8488.
