A Passion for Flying

**ROB AVERY PILOT
TRAINING SYSTEMS**

Rob Avery and an airline ATPL cadet in the B737 simulator.

Act NOW !!

2022 ATPL COURSES in SYDNEY with ROB AVERY

Following on from the very successful 2018, 2019, 2020, 2021 lecture series, **Sydney Flight College** have scheduled in-class delivery of ATPL lectures for the four most challenging ATPL subjects during 2022 at their state-of-the-art Bankstown Airport Campus. Rob's in-class courses are usually sold out very early on, so best move on this now - **Do not delay !**

Course #2/2022

- **Navigation: Monday 12th Sept/end Saturday 17th Sept 2022 (6 days straight).** CASA exam thereafter.
- **Perf & Loading: Thursday 29th Sept/end Monday 3rd October (5 days straight).** CASA exam thereafter.
- **Aerodynamics and Systems: Tuesday 11th Oct/end Saturday 22nd Oct. 10 days (4 on/1 off).** CASA exam thereafter.
- **Flight Planning: Monday 7th Nov/end Sunday 20th Nov. 12 days (4 on/1 off)** CASA exam thereafter.

For those in the Sydney area, this will provide the following benefits...

- Cost savings as no flights or accommodation cost incurred.
- The benefit of having Rob's 25+ year ATPL teaching experience/online training notes working for you.
- Individual subjects available.
- Incorporation of new full size B737 fixed base simulator for training on CASA syllabus re modern flight deck (EFIS, FMS/EICAS).
- Course fully conforms to CASA 2nd December 2021 changes.
- Access to the online course that back's up the in-class delivery sessions. Continue study after class hours at home or at the college.
- Access to courses that for 25+ years have delivered very high student exam first-sit pass rates/marks.
- Personal and direct access to Rob's knowledge and wisdom, plus online help by Rob during, and post course.
- Small class sizes - Personal attention, and not having to compete for rapid assistance with dozens of others in your class.
- All CASA-focused practice exams are included in the price, as is GST.
- CASA exams scheduled between subjects.
- ASL exam centre nearby. Plenty of nearby low cost B&B accommodation, and a lunch bars/coffee shops close by.
- If desired, optional access to any of the other three subjects by distance learning via the Internet (Air law, HPL, and Meteorology).
